

Designing Future Society for Our Lives

Saving Lives

Connecting Lives

Empowering Lives

Osaka Theme Week Framework

We will reflect the **Official Osaka Expo Theme and three Sub-Themes** in our programming where possible. The official **Osaka Expo Theme Week Framework** which includes **eight Theme Weeks** and **three Cross-Cutting Initiatives**, provides an important scaffold for the programming of all participating nations, and reflect Expo's focus on important global issues such as decarbonisation, the energy transition, and sustainability. The Theme Framework can be accessed here [Expo Theme Framework](#). We will align our events calendar with the official Theme Week Framework where appropriate.

AUSTRALIA
EXPO 2025 OSAKA, KANSAI

Chasing the Sun

<i>Sustainability</i>	<i>First Nations Priorities</i>	<i>Regional Collaboration</i>	<i>Gender Equality and Inclusion</i>
Global New Energy and Decarbonisation		Health and MedTech	
Future Society, Cities, Technology and Innovation		Food, Wine, Textiles and Agriculture	
Space		Arts and Culture	
International Education and Research Collaboration		Visitor Economy	
Water, Oceans, Climate and the Natural Environment		Sport	

Australia's overarching theme Chasing the Sun encapsulates Australia's resilience, collaborative nature in embracing ingenuity, optimism, and opportunity for a better future.

Content related to **Australia's four Cross-Cutting Themes** will be embedded across the full six months of our programming. These themes may also be incorporated into our program pillars in order to align to the Osaka Theme Weeks or other programming at Expo.

Australia's ten Program Pillars reflect our sectoral priorities, with each pillar representing a sub-program of event activity taking place over a period of up to a fortnight. We will align the pillars with the Osaka Theme Weeks where possible. Each Program Pillar will be launched by a **Commonwealth-led flagship event** targeting VVIP corporate and government officials, followed by other events related to the pillar, including business development events, trade and investment promotions and business matching opportunities.

The **UN Sustainable Development Goals (SDGs)** underpin all the official Osaka Expo themes and the Osaka Expo Association are promoting Expo as a platform for nations to confirm progress towards the **2030 Agenda for Sustainable Development**. We intend to align our events program with the SDGs.
